

Erasmus+ project

IOT Nuggets: 2018-1-BG01-KA202-047919

Newsletter N° [5] – [March 2021]

IoT Nuggets is a two-year project, co-founded with the support of the European Union by the Erasmus plus Programme.

IoT Nuggets aims at developing a new methodology and framework of digital competences in the specific field of Cybersecurity within the Internet of Things (IoT) ecosystem.

#digital #cybersecurity #learning nuggets #hackers #VET trainers

The **IoT Nuggets** project involves Bulgaria, Greece, Italy and Spain.

The cooperation between these partners favours a transnational approach to the subject, and a running dialogue around an innovative learning method for cybersecurity specialists.

PARTNERS

ULSIT

University of Library Studies and Information Technologies (Bulgaria)

KISMC

Knowledge, Innovation and Strategies Management Club (Bulgaria)

IDEC

Training and management consulting company (Greece)

UDEUSTO

University of Deusto (Spain)

Dlearn

European Digital Learning Network (Italy)

GAIA

Association of the industries of the information and technology sectors (Spain)

This project has been funded with support from the European Commission. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

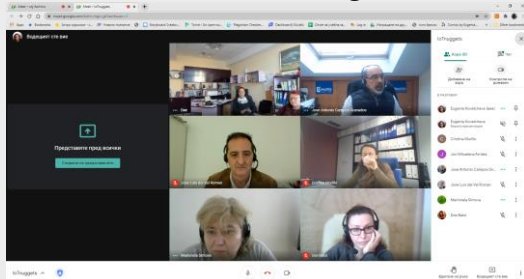

Erasmus+ project

IOT Nuggets: 2018-1-BG01-KA202-047919

End of the project Final conference – mixed mode

IoT Nuggets targets VET providers and trainers in the ICT field, as well as software engineers, programmers willing to specialize in cyber security of the ecosystem of IoT, policymakers, business and IT organisations, associations. The aim of the project is preparing specialists in data and security protection using the innovative approach of ‘learning nuggets’, small chunks of information and content for fast, agile, on-demand learning.

Final transnational meeting

AGENDA for Final Conference

- 5 minutes Welcome by E. Kovatcheva, PhD, ULSIT
- 15 minutes Presentation of the project and the partners by M. Simova, KISMC
- 15 minutes What is the Nuggets-based learning and how to take advantage of it in business, education, or everyday life, E.Kovatcheva
- 15 minutes What is IoT and how it influences our personal or professional lives, G. Dimitrov, Prof., ULSIT
- 15 minutes What are the basic Cyber Security challenges of today, B. Jekov, PhD, ULSIT
- 45 minutes 3 Business Cases
- 45 minutes Online Training
- 30 minutes Q & A, Moderator: M. Simova
- 10 minutes Closure, E. Kovatcheva
